

DO Children learn while Playing ?

Ten Power Boosts for Children's Early Learning

Alice Sterling Honig-n.a.e.y.c.

-  1 Play enhances dexterity and grace.
-  2 Peer play promotes social skills.
-  3 Children's play sharpens cognitive and language skills.
-  4 Play helps kids acquire number and time concepts.
-  5 Play area promote children's spatial understanding.
-  6 Play prompts children's reasoning of cause and effect.
-  7 Sociodramatic play helps children learn about pretend and real world experiences.
- 8 Play enriches children's sensory and aesthetic appreciation.
- 9 Play extends children's attention span, persistence, and sense of mastery.
- 10 Play helps children release emotions and relieves separation anxiety.

Podar Jumbo Kids upholds....

Play in the lives of children, after all Play is the work of childhood.
Join us in our endeavor to gift Play to children.
